Dispersal of Large Farm Animals

Dispersal of Large Farm Animals is a project of our city with sole purpose of increasing farmers' income thru the provision of draft animals for farm operations, Cattle for dairy & breeding purposes & carabao for upgraded draft animal. To be more competitive in the market, farmers are encouraged to have their large farm animals they received from the city to be upgraded thru AI in which the city is using semen from pure bred animals. Upgraded animals can control the authority to have a good price in the market thus, giving an additional income to the farmers.
